ONE GROUP · TWO BRANDS · GLOBAL REACH

STARMER GLOBAL | Starmer Engineering Works

CONFECTIONERY & PHARMA EQUIPMENT MANUFACTURERS

# Complete Lines. Precision Machines. Custom Parts.

We design and build complete production equipment for **hard candy, lollipop, chew, toffee, bubble gum & pharma** — full turnkey lines, individual machines, precision dies and spare parts, all engineered under one roof.

**Engineered in Lahore · Trusted Worldwide**

PAKISTAN OPERATIONS

### Starmer Engineering Works

Local manufacturing & supply for Pakistan's confectionery and food industry — complete machine fabrication, precision dies & molds, and full machine-shop services.

Local Fabrication · Dies & Molds · Machine Shop

WORLDWIDE EXPORT

### Starmer Global

International export of confectionery machinery, dies & molds to buyers across the globe — complete turnkey lines delivered, installed and supported in 25+ countries.

Global Export · OEM Supply · Worldwide Shipping

**5,000+** Clients Worldwide

**21** Complete Line Types

**25+** Countries Served

**60+** Years of Experience

WHAT WE DO

## Our Capabilities

**Confectionery Machines**
Hard candy, lollipop, chew, toffee & bubble gum production lines.

**Dies & Molds**
Precision candy tooling for every confection shape and size.

**Machine Shop**
CNC turning, milling, fabrication & custom precision engineering.

**Custom Parts on Demand**
Send a drawing — or just your idea — and our engineers design & build it.

**Spare Parts & Upgrades**
Original spare parts, machine upgrades & performance retrofits.

**After-Sales & Support**
On-site maintenance, operator training & remote technical assistance.

PRODUCTION CATEGORIES

## What We Build

- Hard Candy
- Lollipop
- Chew & Toffee
- Bubble Gum
- Pharma

HOW WE WORK

## From Brief to Production

1. **Inquiry & Consultation** — Tell us your product, capacity & budget.
2. **Engineering & Design** — We design the line, machine or die to spec.
3. **Precision Manufacturing** — Built & quality-checked in-house.
4. **Install & Support** — Commissioning, training & lifetime spares.

CUSTOM PARTS & ENGINEERING

### Designed & Built for You.

Have a drawing and full details? We build to your exact spec. Only have an idea, a sample or a requirement? Our engineers design the part for you — with full technical support, start to finish.
