WHAT WE DO

## Our Capabilities

**Confectionery Machines**

Hard candy, lollipop, chew, toffee & bubble gum production lines.

**Dies & Molds**

Precision candy tooling for every confection shape and size.

**Machine Shop**

CNC turning, milling, fabrication & custom precision engineering.

**Custom Parts on Demand**

Send a drawing — or just your idea — and our engineers design & build it.

**Spare Parts & Upgrades**

Original spare parts, machine upgrades & performance retrofits.

**After-Sales & Support**

On-site maintenance, operator training & remote technical assistance.

HOW WE WORK

## From Brief to Production

1

**Inquiry & Consultation**

Tell us your product, capacity & budget.

2

**Engineering & Design**

We design the line, machine or die to spec.

3

**Precision Manufacturing**

Built & quality-checked in-house.

4

**Install & Support**

Commissioning, training & lifetime spares.

CUSTOM PARTS & ENGINEERING

**Designed & Built for You.**

Have a drawing and full details? We build to your exact spec. Only have an idea, a sample or a requirement? Our engineers design the part for you — with full technical support, start to finish.
